

SIERRA VISTA METROPOLITAN PLANNING ORGANIZATION

NORTH GARDEN/FRY BLVD PROJECT

A conceptual design study was completed for the West End area in 2017. Business owners along this historic entryway to Fort Huachuca and the City of Sierra Vista were looking for a distinctive look that encouraged a pedestrian friendly environment. At the same time, potential improvements in efficiency, reliability and safety for key downtown intersections and corridors were identified.

This project is the first phase of construction towards enhancing the West End transportation circulation. Construction is planned in the year 2020.

PROJECT TIMELINE:	PROJECT FUNDING:
Conceptual Master Plan Completed 2017 Design Phase Scope/Consultant Bids: March 2019 Design: Winter 2019 Construction: 2020-2021	This project is funded with State Transportation Block Program funding. Design phase: \$368,144 Construction phase: \$2,285,356
