

SIERRA VISTA METROPOLITAN PLANNING ORGANIZATION

TOWN OF HUACHUCA CITY ROADWAY INVENTORY AND ASSESSMENT

In partnership with the Town of Huachuca City, Cochise County and ADOT, the region is providing a detailed roadway inventory and assessment of the greater Huachuca City area. Traffic counts, pavement condition, need for transit stops, bicycle lanes and sidewalks will be considered. Rick Engineering Company is providing consultant services for this effort.

This data collection effort will lead to a fully scoped transportation improvement that will compete for regional funding for construction. To enhance business and residential development, a Town Roadway and Driveway Design Standard will also be considered. Project completion anticipated by the Fall of 2021.

PROJECT TIMELINE:

Develop Scope of Work: Winter 2020
 Contractor Selection: December 2020
 Roadway Inventory and Condition: March 2021
 Roadway Assessment: May 2021
 Design Standard Recommendations: July 2021
 Conceptual Recommendations: August 2021
 Drive-Through Event with Town Council: Aug. 2021
 Major Roads and Scenic Routes Plan: Sept. 2021

PROJECT FUNDING:

Project Funded by Federal Highway Administration Planning funds programmed in the SVMPO Work Program, Regional Planning/Task 7 in partnership with the Town of Huachuca City, Cochise County and Arizona Dept. of Transportation.
 \$70,000 Federal Planning Funds (FHWA PL Fund Source)

PROJECT SCHEDULE SUBJECT TO CHANGE DUE TO WEATHER CONDITIONS, TRAVEL RESTRICTIONS DUE TO STATE-WIDE OR LOCAL EMERGENCY ORDERS

ADDITIONAL INFORMATION

Traffic Counts will be taken by Cochise County in late January 2021. Up to three mailings will be sent to local residents to alert them to the project and invite their comments to this technical data collection effort. A Drive-Through event in the Town's City Hall parking lot area is tentatively planned for the August 2021 timeframe to share the information that was gathered, what was learned, and what the recommendations are for Mayor and Town Council consideration.
